Executive Order 13-02 signed by Governor Nixon transfers the receipt and reporting functions for Local Tax Increment Financing Annual Reports from the Department of Economic Development to the Department of Revenue.

Purpose

Local Tax Increment Financing (LTI) is a method of funding the redevelopment of blighted areas. Areas eligible for LTI contain property classified as a blighted area, an "Economic Development" area, or any combination thereof.

Typical Budget

LTI may be used for the following purposes:

- Professional services, including studies, surveys, audits, financial analysis, and legal counsel.
- Land acquisition and preparation.
- Rehabilitating, repairing, or demolishing existing structures.
- Building necessary new structures, streets, sewers, parking, lighting, and other improvements within the project area.
- Relocation of resident and business structures within the project area.

Supported by Local Tax Incremental Revenues

The idea behind LTI is that the increase in property taxes resulting from the type of redevelopment project within the area will be used to pay the costs of the increase of these taxes collected in the future (up to 25 years) may be allocated by your municipality to help pay the certain project costs, partially listed above.

Developer(s): Hunt-Midwest Enterprises & Rainen Companies Inc.
Senate District: 17
House District: 31
Original Date Plan/Project Approved: 2/1/2000

Plan Description:

The Northgate Redevelopment involved the replacement of single-story garden style apartments 666 with a mixed-use redevelopment. The last years of the complex saw an increasing amount of unattended deterioration which became an increasing blight upon the community and surrounding neighborhoods. Given it made up such a significant portion of the city's residential community, the City decided to take the significant step of designating the area for redevelopment. The City solicited proposals in 1999, selecting the development team of Hunt Midwest, Inc., in partnership with The Rainen Companies. The development agreement approved in tandem with the TIF plan states that the City is responsible for acquiring the property, relocating residents of the apartments, demolishing the old apartment complex, and installing the infrastructure. The City would then sell the land to each respective developer, with no additional funds required of the City. The City would receive any TIF proceeds as reimbursement of the pre-development costs; developers do not receive any TIF proceeds. As of December of 2009, the City has activated all 15 designated TIF project areas that make up the redevelopment project.
